

2026

City of Fredericton

[2026 ANNUAL BUDGET]

City of Fredericton 2026 General Fund and Water & Sewer Fund Budget including Non-tax Revenue, General Revenue from Property Taxes and the Community Funding and Equalization Grant, Service Based Expenditures, Community and Strategic Partner Capital Grants, Capital Expenditures, Debt Service Costs, and estimates of Asset Depreciation at Fair Market Value for 2026. This budget is presented by the eight (8) Program Results areas.

GOVERNANCE & CIVIC ENGAGEMENT

Responsible and responsive; Vision, leadership, decisions

MOBILITY

Safe, accessible options for movement in and around the community

ECONOMIC VITALITY

A strong, resilient and growing economy

PUBLIC SAFETY

A safe and secure community

ENVIRONMENTAL STEWARDSHIP

A Clean, Green Community: Water, Land and Air

CORPORATE EFFICIENCY

Efficient, Effective and Responsive Internal Services

LIVABLE COMMUNITY

A Vibrant Inclusive, Well-planned, Connected and Active Community

SUSTAINABLE INFRASTRUCTURE

Infrastructure ready for service at a cost we can afford

COUNCIL'S VISION, PRIORITIES AND APPROACH FOR THE 2026 BUDGET

"An inspirational, growing city with a sense of community and culture, promoting thoughtful urban development, active living and a social, environmental and fiscal conscience" – 2021 Fredericton City Council Vision

OVERVIEW

Despite the Provincial Government's decision to implement a one-year property tax assessment freeze, the City was able to maintain all existing services, while enhancing and improving some services. This is made possible by being focused on priorities and flexible in how resources are allocated to provide services, as well as relying on assessment growth from new construction to fund inflationary pressures without increasing the tax rate for the majority of property owners. Balancing the budget also required the use of the newly announced Provincial funding for Capital Renewal that allowed the City to meet the needs of the long-term financial plan for capital reinvestment. This has resulted in a 2026 budget that provides affordable services while delivering public value in a long-term and sustainable way.

The market assessment freeze for 2026 results in the majority of property owners paying the same amount for a tax bill as in 2025, with only changes resulting from home sales and building renovations. In general, the overall market assessment increase across all sectors was 0.31%. The development market resulted in new construction growth at 2.11%, so in total, the City saw an increase of 2.42% on its overall tax base for revenue. The tax base growth represents a strong, growing community through a significant increase in residential development.

While the intention of the long-term financial plan is for market assessment increases to cover the growing costs of existing services, the new construction growth should allow the City to invest more in adding new or enhancing and improving services to increase the value provided to our residents and businesses. Due to the assessment freeze, the City was unable to follow this plan which means that there will need to be adjustments made in future years to make sure that the City does not fall behind.

With affordability and public safety being foundational components of the 2026 budget, the City is continuing to invest in new transit service, continuing to invest in public safety services like the Community Safety Services Unit and the Community Engagement Unit, investing in recreational programming to include free learn to skate programs and free public skate times, while maintaining the tax rate for the majority of residents who can go into 2026 knowing what their tax bill will be.

LOCAL GOVERNANCE REFORM

In 2023, the City grew in area and population through the amalgamation of areas previously part of former local service districts. 2026 will see another year of transition as the City of Fredericton Police Force takes over police of jurisdiction from the Royal Canadian Mounted Police for the new boundaries late in 2025.

2026 will represent the third year of a rate adjustment to see residents who reside in the outside and newly amalgamated areas to move to a rate that more fairly represents the services provided. The Province of New Brunswick will continue to bill, collect and provide road services to residents in the amalgamated areas as roads have not transferred to the municipality through Local Governance Reform.

SERVICE DELIVERY

In 2026, the City's budget focuses on keeping things affordable and fair – meaning results are achieved for the community while maintaining a reasonable tax effort and staying accountable to the taxpayer. With the 2026 assessment freeze, the City is unable to address high inflationary pressures through the intended plan. This required utilizing funding from new construction assessment and relying on new Capital Renewal Funding to ensure stable and high-quality services continue to be provided to residents, without increasing the inside rate, however, it does mean that the City was unable to provide a tax rate decrease as it has for the past 4 years. The City has provided a total tax rate reduction of 12.25 cents over a 4 year period to Inside rate payers.

It is a challenge to maintain affordability given the inflationary pressures incurred. Of the 2.56% increase to revenue, 2.75% was allocated to inflationary impacts, 1.99% was allocated to growth related initiatives and 1.86% was allocated to new and enhanced services. Departments were able to find savings and/or reallocate resources by 1.08% of the total budget and the General Fund budget was reduced by 2.96% using Capital Renewal Funding. Additional personnel costs are also being strategically added to work in areas of Transit and other areas to address growth needs, and additional support for employees and residents.

Chart 1: Comparison of increases in market assessments to inflation

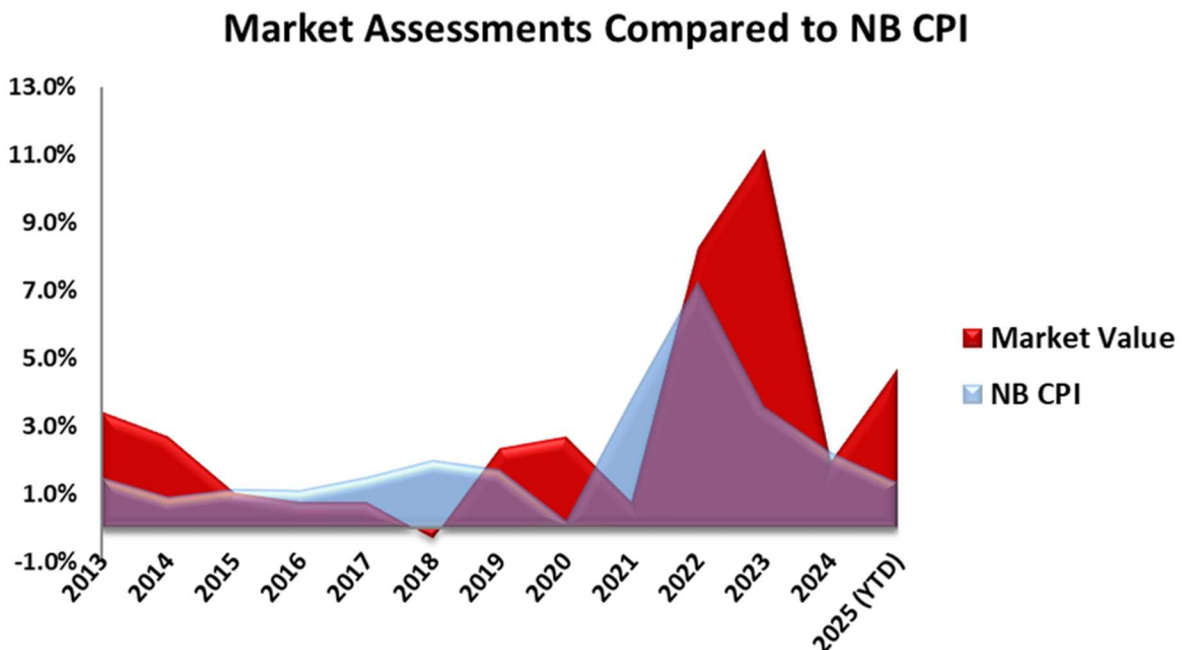

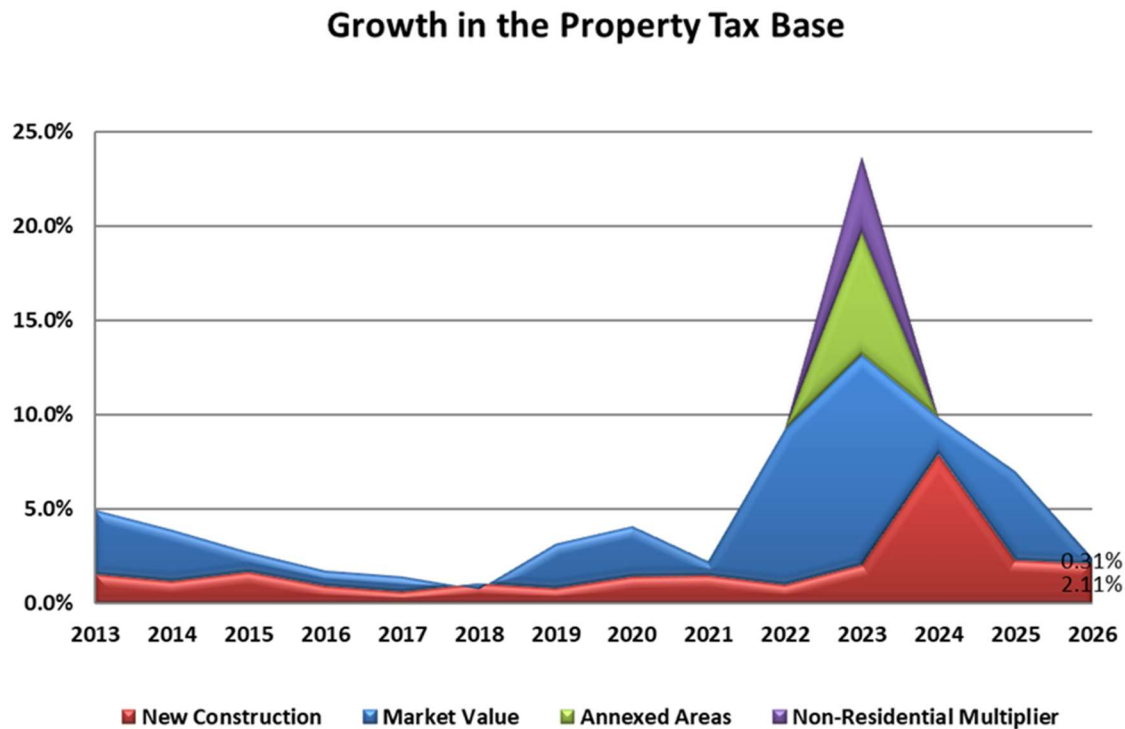

Chart 2: tax base revenue growth from market assessments and new construction

MUNICIPAL TAX EFFORT

With the past trend of property tax assessments rising faster than CPI, the City was concerned that over time taxpayer affordability may be impacted. To better understand taxpayer affordability the City began tracking Municipal Tax Effort.

Municipal Tax Effort measures what percentage of household income is being used to pay for municipal property taxes and water and sewer rates.

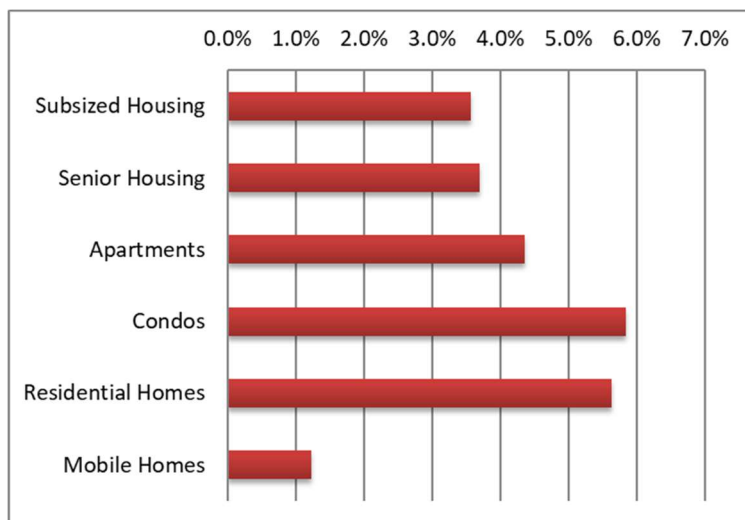

$$\text{Municipal Tax Effort} = \frac{\text{Municipal Tax Burden Per Residential Unit}}{\text{Household Income}}$$

Tax Effort by Household Income

For 2024, Fredericton's overall Municipal Tax Effort was 5.0%. This means that for the average residential unit 5.0% of their household income pays for municipal taxes and water and sewer rates. As shown in the chart, as income ranges increase so does the amount of municipal taxes paid; however, the amount of taxes paid compared to income decreases. The City provides a high level of service and value to all its taxpayers while remaining affordable. Even for lower income ranges tax effort is still at an affordable level relative to the services being provided.

Household Income Range	Avg. Municipal Tax Burden	Avg. Municipal Tax Effort
\$ 25,000-40,000	\$ 2,954	6.7%
\$ 40,000-55,000	3,149	5.2%
\$ 55,000-70,000	3,596	4.6%
\$ 70,000-85,000	4,234	4.5%
\$85,000-100,000	4,687	4.1%
\$100,000-115,000	5,407	4.3%
\$ 115,000-130,000	5,520	3.7%
> \$ 130,000	6,661	3.5%
Total	\$ 3,744	5.0%

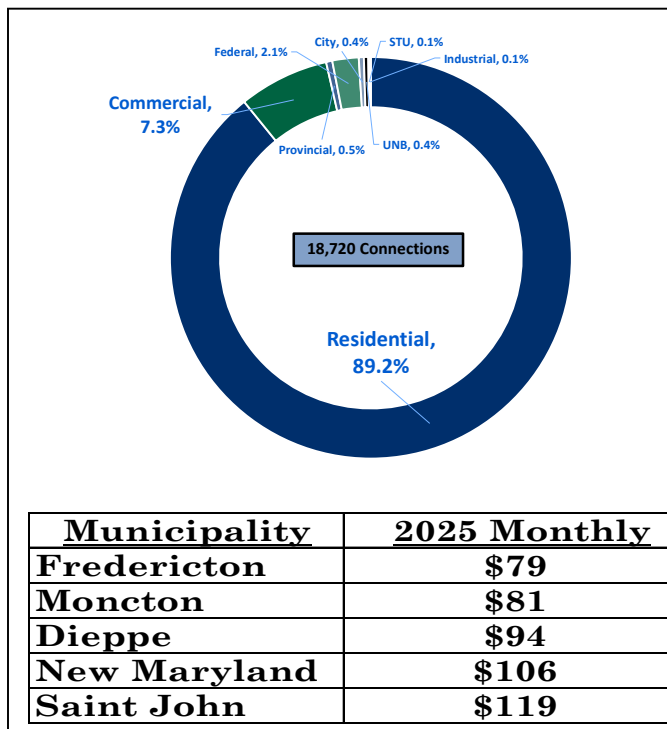

Tax Effort by Housing Type

Fredericton's residents also have a choice when it comes to affordability as their housing decision can impact their Municipal Tax Effort. Data shows that residential homes and condos tend to have higher tax efforts on average than apartments, senior housing, and mobile homes. Understanding tax effort relative to housing types allows citizens to make informed decisions that suit their needs and their level of affordability.

Municipal Tax Effort shows that Fredericton is an affordable city for its residents in which they can play a role in determining their level of affordability.

Table 1. Comparison of average annual NB municipal water and sewer rates

Fredericton continues to have one of the lowest average annual costs for municipal water and sewer consumers in the Province of New Brunswick. Residents receive high quality drinking water and are provided with wastewater management services that meet federal guidelines for environmental stewardship. The City of Fredericton takes pride in the high-quality service provision that we provide to our nearly 18,700 customers.

The 2026 Water & Sewer Utility intends to maintain rates, for both the fixed quarterly service charge and the consumption rate. While we continue to see a decrease in consumption in residential accounts, one of the key principles of the long-term plan is to keep rates affordable. Water and sewer are infrastructure-intensive services and require a significant investment every year. In 2026, the City continues to leverage other government funding to help reduce our infrastructure deficit and continue to address Federal guidelines as set out to meet or exceed these guidelines on an annual basis.

Strategies to maintain reasonable residential property tax effort

Focus on Cost Efficiency

- Reduce operating costs through efficiencies and eliminating waste
- Leverage existing infrastructure by increasing infill density
- Create additional value with affordable quality services and infrastructure that makes the City attractive to new residents and business and increases the population density

Diversify Revenue Base

- Reduce tax reliance on residential property taxpayers
- Focus on economic development to increase the size of the commercial tax base
- Increase non-tax revenues

Increase Median Income

- Focus on economic development to increase the size of the commercial tax base and employment opportunities
- Foster entrepreneurship
- Attract new residents to start new business, buy existing business and offset the aging population

CORPORATE STRATEGY

The City manages its risks related to slowing revenue growth, operating cost sustainability and continues to build a resilient organization capable of executing on Council's vision and continue with implementation of the City's Municipal Plan by using a corporate strategy focused on engaging the workforce in continuous improvement.

Engagement

- *There are many initiatives underway to help engage staff to continue to provide high quality services to the community*

Attendance

- *Good attendance management means more capacity*

Manage the workforce

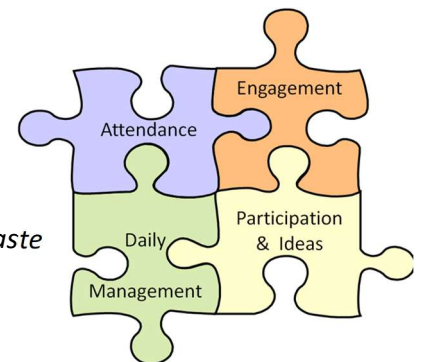

- *Strategically adding resources where required*

Innovation & Efficiency

- *Continuous Improvement culture of improving services and reducing waste*

Planning and Focus

- *Plan for the future (Municipal Plan, Corporate Strategic Plan)*
- *Focus on Council priorities*
- *Alignment and accountability*
- *Corporate & Community Energy and Emissions Plans*

CORPORATE STRATEGY RESULTS

The results of the corporate strategy lead to a flexible organization gaining efficiencies.

Capacity Built	Process improvements and efficiencies mean more time for staff to focus on delivering quality services that are high priority
Costs Avoided	Deeply leveraging existing resources and creating internal efficiencies has avoided the need to increase spending in all areas
Budget Savings	Efficiency projects and managing the workforce create real budget dollar savings that are permanently removed from the budget or allocated to priority areas
Service Improvements	The culture of continuous improvements means services are continuously evaluated for improvement opportunities and better ways of delivering services

MANAGING THE WORKFORCE

Through the budget process the City is continuing to right-size staffing levels. In the past, the City grew staffing levels too quickly in too short of a period to an unsustainable level for the times. The workforce reduction strategy and efficiency efforts had allowed the City to return staffing to 2002 levels in most areas between 2012 - 2018, which was considered a sustainable level for the community. As growth in the City occurs, the need for additional resources also increases. 2026 will see strategic investments in Bylaw Enforcement/Community Safety, Transit, Fire, as well as internal service divisions. The City will also continue with adjustments to place a focus on fostering employment opportunities for our student population.

PUBLIC VALUE

Budgeting for Results

- Transform dollars into results creating public value
- Through demonstrating the full cost of services, and results achieved
- Budget is a one-year snapshot of a longer-term plan aimed at achieving the City's vision

Maximize Value for Money

Attraction & Retention (population growth)

- Shows City is achieving results important to public – a great place to live and do business.

Creating Value for Residents

- Service value outweighs additional costs.

Creation and Implementation of Strategies/Plans – Execute

- Municipal Plan
- Historic Garrison District Plan
- Officers' Square Plan
- City Centre Plan
- Economic Development Strategy

FLEXIBILITY

The budget focuses on being flexible – allowing room to address community priorities and changes in conditions. In the long-term financial plan, debt load is managed to allow room to address one-time capital to deliver on key strategic Council priorities – such as the planned contribution to the Performing Arts Centre or the acceleration of implementing the plan for improvements to Officers’ Square.

Flexibility allows the ability to:

- Adapt to changing needs/perceptions
- Accomplish community vision (Municipal Plan) and Council priorities over time and within a reasonable level of tax effort (affordability)
- Allows the City to manage in a time of crisis and the ability to deliver a balanced budget without negatively impacting service delivery

DEBT AND ONE-TIME CAPITAL

Debt Servicing Costs – principal and interest payments on long term borrowings.

- Used for major capital projects that provide long term value to citizens.
- Used for longer lived assets that benefit those paying for it over a long period of time (Intergenerational Equity).

One Time Funding – available in years where new debt is not incurred but maintains 8% capacity room for debt.

- Used to further key strategic Council priorities to meet the needs of the community.

DEBT PRINCIPLES

- Debt is not used for on-going renewal, repairs, and replacement projects. The City doesn’t borrow to “buy groceries or for household repairs”.
- Debt room is preserved to provide flexibility in financing long-term major capital priorities towards Council’s mandate every 4-8 years
- Debt financing spreads the cost of assets over a longer portion of their useful lives. Paid by those that use the assets over time.
- Good planning means that the people who benefit from an asset are also the ones who pay for it (intergenerational equity)
- Balancing the debt servicing payments in order to maintain fiscal room and not crowd out other spending means Council Policy endorses an 8% limit on debt

SUSTAINABILITY

Considering the impact of today's decisions on future generations:

- Financial sustainability requires long-term planning; it does not just happen by chance
- "Spending the right money on the right things at the right time" within financial constraints
- "Meeting existing service delivery without compromising the ability to meet future needs"
- Consideration of the impacts to construction projects and operations on the environment
- Growing services in a strategic way to adapt to a increased population and changing demographic

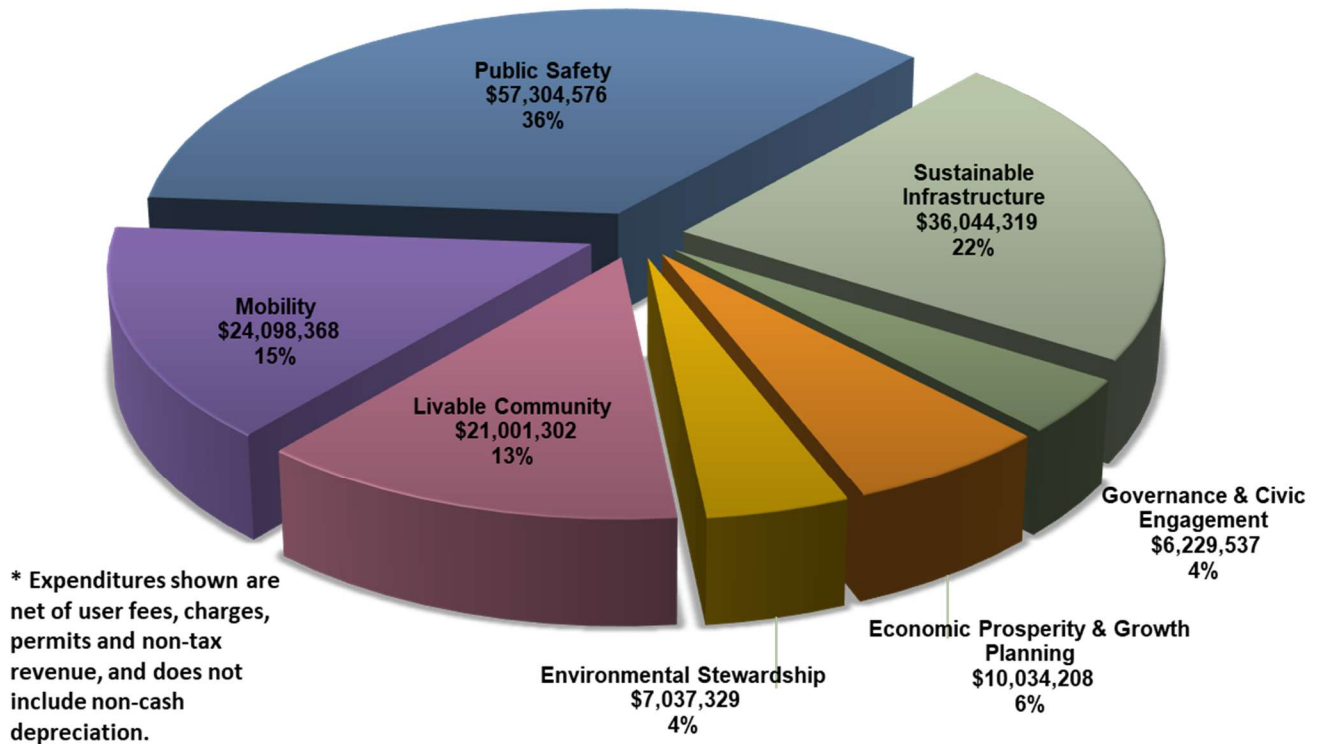

Fiscal Strategy – Capital Funding & Financing Balances Renewal with New, and aligns capital from operating and Debt

- Capital investment from operating and Debt $\approx$ 20%-25% of budget
- Debt less than 8% of budgeted revenue
- Infrastructure replacement funding strategy
- Reduce infrastructure deficit over 20 years
- Carefully manage capital asset management plan
- Preventative maintenance
- Rationalize, right-size and optimize existing infrastructure
- Tie to service delivery and demand
- Investments in initiatives which achieve objectives in the City's Corporate Energy and Emissions Plans

2026 FOCUSED SERVICE IMPROVEMENTS & ENHANCEMENTS

- ✓ Corporate Leadership – Continued involvement in Local Governance Reform and support for regional, provincial, and federal partnerships.
- ✓ Economic Vitality - support through community funding partner groups and continued investment in festivals and events.
- ✓ Environmental Stewardship – Updates to both the Corporate and Community Energy and Emissions Plans and continuation of the electric vehicle strategy. Programs fully funded for enhanced yard waste pick-ups, and back yard composting. Waste audits to help tailor marketing strategies to promote waste diversion.
- ✓ Livable Community – Continued reinvestment in the downtown urban core, executing on the City Centre Plan with continued investments in the shared street concept with Officers' Square and new park development as well as continuation of major park plans. Continued activation for non-motorized access to our beautiful rivers.
- ✓ Mobility – Introducing increased transit service through new route development. Continued focus on concrete maintenance and vegetation removal in the downtown core.
- ✓ Public Safety – Improvements to community safety services unit to support the community through 12 month coverage including secondary trail unit. Funding for the piloted Community Engagement Unit with Police. Increasing use of technology for improved and safer service delivery. Continued focus on training for all aspects of public safety. Focus on wildland fire safety planning and equipment.
- ✓ Corporate Efficiency – Strong focus on cybersecurity to maintain integrity of Corporate systems and implementation of a Customer Relationship Management system for improved interactions with the public.

RESULTS AREAS FUNDED FROM GENERAL REVENUE

The budget creates value through eight municipal Program Result Areas. Each Program Result Area has specific strategies and objectives outlined through the Municipal Plan, Master Plans and Studies. Council articulates priority areas of focus through the governance and civic engagement process throughout the year.

GENERAL FUND BUDGET SUMMARY

CITY OF FREDERICTON

General Fund

2026 Annual Budget

	% of Budget	2026	2025
Revenue			
Warrant for Property Taxes	86.7%	\$ 160,250,755	\$ 156,346,042
Community Funding and Equalization Grant	0.4%	824,545	805,011

2026 Capital Budget

GENERAL FUND TANGIBLE CAPITAL ASSET VALUES AND INFRASTRUCTURE DEFICIT

The total estimated replacement cost of the General Fund infrastructure is estimated to be one billion seven hundred dollars (\$1.70B) (see Chart 1 below). There are tangible capital assets owned by the City that have reached the end of their useful lives but have not yet been replaced. The current replacement cost of these assets is referred to as the infrastructure deficit and is estimated to be one hundred and eleven million dollars (\$111M) (see Chart 2 below).

Chart 1. Total replacement value

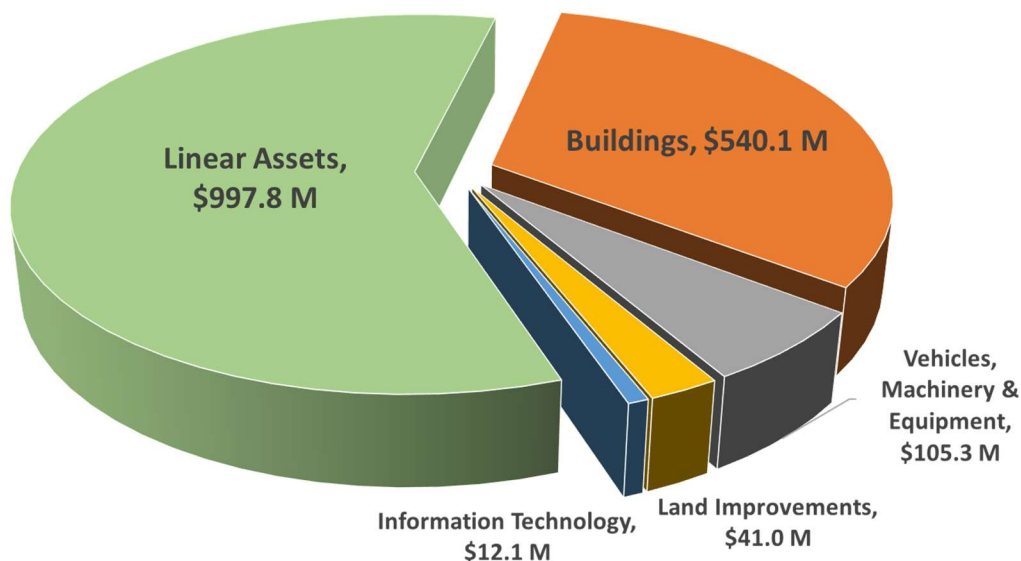

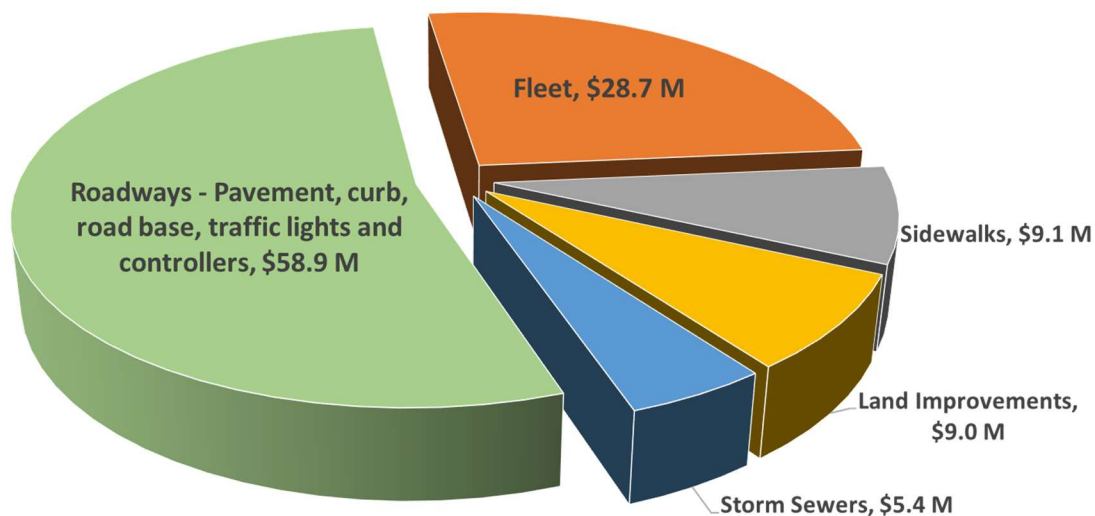

Chart 2. Infrastructure deficit

GENERAL FUND LONG-TERM FINANCIAL PLAN AND CAPITAL POLICIES

The City is addressing the infrastructure deficit through its fiscal policies and long-term financial plan. The Long-term Financial Plan (LTFP) prescribes the level of funding required for infrastructure renewal that will reduce the infrastructure deficit over a period of time. There are three key components of Council's adopted financial plans and policies that make this strategy effective:

1. Fiscal policy requires that seventy five percent (75%) of the pay-as-you-go capital budget be spent on infrastructure renewal or rebuilding and sets a target of no more than ten percent capital spending on new infrastructure.
2. The LTFP provides an additional five percent (5%) for infrastructure deficit funding each year; and
3. Debt service costs are limited to eight percent (8%) of the total budget to maintain sufficient pay-as-you-go capital budget.

The Plan intends to bring the infrastructure capital investments to a level that is sustainable and pays for the infrastructure used today to not encumber future generations. Without the Council adopted LTFP and fiscal policies the infrastructure deficit would continue to grow.

CAPITAL BUDGET FUNDING ALLOTMENT & ALLOCATION

The annual capital budget funding allotment is based on the proposed revised Long-term Financial Plan and policies for Capital Prioritization and Investment, and Debt Affordability Management. The budget follows the financial plans and policies by allocating seventy five percent (75%) of the annual pay-as-you-go base budget to infrastructure renewal, ten percent (10%) to capital maintenance and planning, ten percent (10%) to new infrastructure, and five percent (5%) to promote and support existing growth. An additional five percent is added to the prior year's renewal amount for infrastructure deficit funding.

Debt service costs are limited to eight percent (8%) of total revenues. Any amount of the debt service budget that is not committed to existing debt servicing costs are available in the capital budget as one-time capital amounts.

In 2026, as part of Local Governance Reform, the Province introduced a new Capital Renewal Funding program that supported municipal investment in infrastructure renewal. This funding is not included in the City's official budget totals but has been included below for illustrative purposes. For 2026, this funding allowed the City to maintain its investment in infrastructure renewal despite facing minimal increases to property tax revenue as a result of the Province freezing property tax assessments. The funding is anticipated to increase annually over the next four years.

Table 1. Capital Budget Funding

Capital Budget Funding	Capital Budget Policy	2026 Amount
Annual pay-as-you-go capital budget	0% Increase over prior year	\$ 21,135,587
Infrastructure deficit funding	5% Increase over prior year renewal budget	2,771,235

Total Tangible Capital	\$25,859,794		\$ 26,809,000
Non-tangible Capital Assets *			
10% of annual pay-as-you-go capital budget	2,390,682	16%	3,398,000
One-time capital	-		400,000
	\$ 2,390,682		\$ 3,798,000
Total Capital Budget	\$28,250,476		\$ 30,607,000

*Non-tangible capital asset spending is included in the operating budget.

GENERAL FUND CAPITAL BUDGET ANNUAL COMPARISON

The tables below show a comparison of the annual amounts budgeted for tangible capital renewal and new investments. (Non-tangible capital budget allotments are included with the operating budget)

Proposed General Fund Capital Budget Allotment

	2024 Budget	2025 Budget	2026 Proposed Budget
Regular Pay-as-you-go Capital	\$ 19,215,610	\$ 25,732,685	\$ 14,795,887
Infrastructure Deficit Funding	792,585	1,632,815	2,771,235
Capital Renewal Funding	-	-	5,335,878
One-time Capital	6,195,000	5,816,000	3,906,000
<i>Total</i>	\$ 26,203,195	\$ 33,181,500	\$ 26,809,000

*One-time capital represents the portion of the capital budget available for debt repayments on future capital borrowing projects.

General Fund Capital Uses Summary

	2024 Budget	2025 Budget	2026 Proposed Budget
Replacement/Rebuild	\$ 16,805,995	\$ 17,251,000	\$ 17,992,500
New/Extension	7,822,200	7,614,500	6,316,500
Growth	1,575,000	2,500,000	2,500,000
<i>Total Tangible Capital</i>	\$ 25,022,849	\$ 27,365,500	\$ 26,809,000

GENERAL FUND CAPITAL BUDGET ANNUAL POLICY TARGET COMPARISON

On average, over a three-year period the capital budget policy targets have generally been met.

Capital Budget Category	2024	2025	2026	3 Year Average
Replacement/Rebuild	79%	71%	60%	70%
New/Extension	7%	7%	11%	8%
Growth	7%	10%	12%	10%
Non-tangible Capital	10%	12%	16%	13%

CAPITAL BUDGET BY RESULTS AREA

The capital budget is shown by program results area. Below is a summary of capital budget spending by results area. The following pages provide a detailed list of planned project expenditures by program results area.

Sustainable Infrastructure	500,000	190,000	-	690,000
Corporate	1,452,000	115,000	-	1,567,000
	\$ 17,992,500	\$ 6,316,500	\$ 2,500,000	\$ 26,809,000

Capital projects are Approved that deliver on Council's Vision of "An inspired City with a sense of community, fostering innovative development, active living and a social, environmental and fiscal conscience".

The capital budget for 2026 builds on the following themes from Council's vision:

- Responsible Infrastructure
- Implementation of the City Centre Plan, Officer's Square and Historic Garrison District Plans
- Park Plan Implementation
- Neighborhood Parks and Trails
- Active Transportation
- Accessible Transportation
- Amenities that Attract
- Sustainable Energy
- Corporate Efficiencies

CAPITAL BUDGET RESULT AREA DETAILED PROJECTS

Environmental Stewardship

Renewal/Rebuild

Arboriculture	\$	64,500
Replacement of Light Vehicles Across Organization (Hybrid or Electric)		400,000
Garbage Truck*		450,000
Storm Sewers Renewal		450,000
Environmental Stewardship Total Renewal/Rebuild	\$	1,364,500

New/Extensions

Refillable Water Fountains	\$	50,000
Arboriculture		150,500
Environmental Stewardship Total New/Extension	\$	200,500

Total Environmental Stewardship Capital	\$	1,565,000
--	-----------	------------------

Livable Community

Renewal/Rebuild

104th Regiment Steps*	\$	50,000
Mitch Clark Park Coil Replacement		60,000
Horticulture Renewal		100,000
Willie O'Ree Lighting Control Replacement		100,000
LBR Chiller And Pump Replacement		109,000
Emerald Ash Borer (Treat, Remove, Replace)		150,000
Marysville Heritage Center HVAC		150,000
Outdoor Sport Court & Field Renewal		200,000
Willie O'Ree Ice Resurfacer		210,000
Playground & Park Infrastructure Renewal		230,000
Regent Street Wharf		250,000
Livable Community Total Renewal/Rebuild	\$	1,609,000

New/Extensions

Urban Plan Implementation - Main St	\$	75,000
Park Infrastructure		100,000
River Access Initiative		350,000
Outdoor Sport Court & Field		550,000
LED Lighting for Trails - Gibson to St. Mary's		630,000
Park Plan Implementation		1,200,000
Livable Community Total New/Extensions	\$	2,905,000

Growth

Golf Club Road Park	\$	500,000
Livable Community Total Growth	\$	500,000

Total Livable Community Capital	\$	5,014,000
--	-----------	------------------

Mobility

Renewal/Rebuild

River Street Reconstruction	\$	50,000
Parking Equipment Renewal		50,000
Gill Street (Gill to Dobie)*		57,000
Traffic Controller Renewals		95,000
Trail Culvert Renewal		140,000
Devon Area - Noble Street (Irvine to Ashfield)		190,000
Silverwood Area - Hummingbird*		193,000
Trackless MT-6*		230,000
Transportation Safety Improvements		250,000
Northumberland Street Phase 3 (Saunders to Argyle)*		275,000
Road Rebuilding		300,000
Trail & Pathway Renewal		300,000
Crocket Street Phase 2 (Long to Pickard)*		320,000
St Mary's St (Union to Maple)*		335,000
Westmorland Street Phase 1 (Parking & Queen to King)*		369,000
Freightliner Plow Truck		400,000
Riverside Drive Phase 4 (Bridgeview to McMinnimum)*		418,000
Curb & Gutter Renewal		600,000
Sidewalk Renewal		600,000
Burpee Street Phase 1 (Lift Station to Floral)*		660,000
Lincoln Road Phase 4 (Irving to #278)*		698,000
Roofing Various Buildings (Roof Re-Cap)		1,000,000
Asphalt Resurfacing		3,000,000
Mobility Total Renewal/Rebuild	\$	10,530,000

New/Extensions

Real Time Parking Technology (LPR Readers And Mobile Enforcement)	\$	20,000
Court Upgrades		35,000
Electronic Fare Transfer System		40,000
Active Transportation Parking		50,000
Survey Equipment		50,000
Traffic Calming		50,000
Accessible Bus Stops and Shelters		50,000
Crosswalk & Trail Crossing Safety Improvements		100,000
Parking Structure and Transit Hub Development		100,000
One Ton Truck (Transit Service On Street)		120,000
Mini Excavator		140,000
Active Transportation		500,000
Public Realm Implementation		1,476,000
Mobility Total New/Extensions	\$	2,731,000

Growth

Duncan Lane/Golf Club Rd Intersection	\$	950,000
Cliffe & Brown Roundabout		1,050,000
Mobility Total Growth	\$	2,000,000

Total Mobility Capital	\$	15,261,000
-------------------------------	-----------	-------------------

Public Safety

Renewal/Rebuild

3 Thermal Imaging Cameras	\$	14,000
Patrols Hard Body Armour		25,000
Damaged Ballistic Shields		40,000
ERT and TEMS Tactical Helmets		40,000
ERT and TEMS Hard Body Armour		56,000
Fire Station Improvements (Kimble Curb, Two Nations Fence)		75,000
Jaws of Life		75,000
Public Safety Systems Renewal (Police/Fire/911)		100,000
Police - Marked Taurus		100,000
Police - Marked Explorer Hybrid		100,000
Fire Rescue Tools		125,000
Bunker Gear Renewal		205,000
York Fire Soft/Facia Asbestos Abatement/Replacement		300,000
Fire - Freightliner Pumper Truck*		1,282,000
Public Safety Total Renewal/Rebuild	\$	2,537,000

New/Extensions

Building Inspection - Hybrid Vehicle	\$	50,000
Fire Panel - Transit		60,000
Police - Unmarked Car		65,000
Public Safety Total New/Extension	\$	175,000

Total Public Safety Capital	\$	2,712,000
------------------------------------	-----------	------------------

Sustainable Infrastructure

Renewal/Rebuild

Rebuild/Painting Heavy Equipment & Trucks	\$	500,000
Sustainable Infrastructure Total Renewal/Rebuild	\$	500,000

New/Extensions

Engineering Project Management Systems	\$	190,000
Sustainable Infrastructure Total New/Extension	\$	190,000

Total Sustainable Infrastructure Capital	\$	690,000
---	-----------	----------------

Corporate

Renewal/Rebuild

Core Info System Migration- Information, Document Management and Records	\$	95,000
Business Intelligence - Centre of Excellence Use Case Development		125,000
CRM Phase III		150,000
Core Infrastructure Network Refresh		195,000
St. Mary's Depot Site Works and Security Enhancements		250,000
HR System Enhancements		287,000
Data Centre Renewal		350,000
Corporate Total Renewal/Rebuild	\$	1,452,000

New/Extensions

E-Signatures Implementation/Automated Forms and Workflows	\$	45,000
Artificial Intelligence Private AI and Agentic Workflow		70,000
Corporate Total New/Extensions	\$	115,000

Total Corporate Capital	\$	1,567,000
--------------------------------	-----------	------------------

*Project funded or partially funded by Capital Renewal Funding provided by the Province of New Brunswick.

CAPITAL BUDGET – DEBT SERVICE COST BY RESULTS AREA

The annual commitments for debt service cost are shown below and summarized by result area. The total amount required to meet debt service commitments for 2026 is \$10,362,148, which is 5.6% of the total budget.

2026 Debt Repayment Budget - By Program Results Area			
Result Area	Debentures	Leases	Total
Mobility	\$ 1,241,084	\$ 1,119,836	\$ 2,360,920
Livable Community	5,599,018	-	5,599,018
Economic Prosperity & Growth Planning	1,106,063	-	1,106,063
Public Safety	729,445	566,702	1,296,147
	\$ 8,675,610	\$ 1,686,538	\$ 10,362,148

Mobility Debt Service Cost

Buses (6)	\$ 1,119,836
East End Parking Garage	613,706
560 King St Lot	386,504
Salt Trucks (2)	240,874
Total Mobility Debt Service Costs	\$ 2,360,920

Livable Community Debt Service Cost

Hawkes Centre for the Arts	\$ 3,049,217
Grant Harvey Centre	1,198,448

Fire Station #5	200,606
Total Public Safety Debt Service Costs	\$ 1,296,147

Total Debt	\$ 10,362,148
-------------------	----------------------

NON-TANGIBLE CAPITAL INCLUDED IN THE SERVICE BASED (OPERATING) BUDGET

Non-tangible capital asset (NTCA) expenditures are costs related to the stewardship and care of capital assets and infrastructure. These costs typically include pre-planning and design, professional services, long-term plans, consulting and public engagement, and maintenance and renewal of smaller assets that do not meet the dollar threshold of the capitalization policy.

NTCA expenditures are not included in the capital budget. Instead, they are included in the cost-of-service delivery and presented with the service-based budget. Capital assets and infrastructure are used in the delivery of services, so costs associated with infrastructure operations are linked to the services rendered in the service budget. This information is provided to communicate areas of emphasis related to capital planning, and to highlight the renewal and on-going care of existing infrastructure.

Non-tangible Capital to be Included in the Service Based (Operating) Budget

Program	
Corporate	
General Light Equipment	\$ 35,000

NOTES:

*City receives the revenue. The 1.7 represents the business tax rate.

*The above Property Tax Rates apply to all properties (land & buildings) within the City limits, per \$100 of assessment.

*Depending on the zoning, the City generally pays the Commercial Property Tax Rate (2 & 3 above).

*The City also pays the BIA Rate of 20¢ on some buildings, such as City Hall, Police Station, Convention Centre and Parking Garages.

*Residential Tenancy Administration Fee came into effect on 1992 December 11—which is a fee for the cost of the Rentalsman Office.

*The combined tax base for 2026 increased by 2.18% over 2025.

*The base used for 2026 to set the Tax Rate was \$12,570,528,990 which does not include Federal properties.

NON-RESIDENTIAL TAX RATE:

*PNB levies a property tax on non-residential (commercial) property within municipal boundaries. A development in the downtown core pays a total rate of \$4.3000. Of that total, the City of Fredericton collects \$2.2246, or 52% of the total tax charged. The BIA levy of 0.20 is a tax imposed upon businesses by themselves through Downtown Fredericton Inc.

(a) GNB reduced the provincial tax rate for non residential properties from \$2.1860 to \$1.8560 effective 2023.

(b) GNB reduced the provincial tax rate for non-owner occupied residential properties from \$1.1233 to \$0.5617 effective 2023.

WATER & SEWER STRATEGY

GOAL

To continue to provide safe, reliable drinking water to customers and environmentally responsible wastewater treatment at rates that are affordable and competitive within the region, all while addressing infrastructure needs to minimize service disruptions.

KEEPING YOU WATER SAFE AND CLEAN

SUMMARY

- In alignment with the long-term financial plan, and to account for inflation and capital investments, a 5% revenue increase is planned for 2026.
- Each year, the intention is that more of the water & sewer revenue be directed towards infrastructure renewal than operational costs when including capital funding from other levels of government.
- Borrowing is typically avoided for infrastructure renewal in the Utility as it simply delays the infrastructure issue, incurs additional costs, and reduces available funds for direct infrastructure investment moving forward. It is comparable to using debt to fund annual household repairs – it defers the problem and raises overall costs.
- There are significant investments needed in the Utility to help support the growth in the community.

FUNDING STRATEGY

The Water & Sewer Long-term Financial Plan is designed to maintain infrastructure while minimizing rate increases and preventing rate shock. This approach includes:

- 1) Aggressively pursuing funding to pay for the cost for any new legislated water and wastewater standards so rate payers do not pay for this cost.
- 2) Obtaining additional funding from other levels of government to directly address the infrastructure deficit, with ongoing efforts to obtain further support.
- 3) Avoiding interest costs by not borrowing for infrastructure renewal, as borrowing to fund regular maintenance is financially unsound and like financing ongoing household repairs.
- 4) Recognizing the significant infrastructure challenge and addressing it through a planned, proactive approach rather than deferring it to future generations at a higher cost.; and
- 5) Adjusting rates gradually to maintain affordability and ensuring they remain competitive within the region.

WATER & SEWER BILL STRUCTURE

The typical City of Fredericton Water & Sewer bill consists of three components:

1) Fixed Fee (Quarterly Service Charge)

- This charge funds the infrastructure required to deliver water and wastewater services to and from customers, along with associated infrastructure operating costs.

2) Variable Fee (Consumption Rate)

- This charge covers the operating costs associated with water and wastewater movement and varies depending on the customer's water usage.

3) Meter Rental

- This charge covers the costs of installing, maintaining, and replacing water meters. This charge varies based on meter size.

Currently, there is a mismatch between how revenue is generated and how costs are incurred. Approximately 80% of the costs of the utility are fixed, meaning they remain consistent regardless of water usage. The remaining 20% of the costs relate to water and wastewater treatment, which fluctuate based on the volume consumed. This 80/20 cost split is typical for utilities, given the significant infrastructure required to deliver these essential services.

For the average household, the typical breakdown of the water and sewer bill is roughly 60/40, with 60% coming from the fixed fee and 40% from the consumption rate. This structure incentivizes customers to conserve water, as reducing consumption lowers the bill, while still allowing the City to collect revenue for essential infrastructure renewal. However, as the fixed portion of the bill (60%) is lower than the fixed portion of the costs (80%) there is risk that continued reductions in water usage could pose financial challenges for the utility.

The financial risk is managed by reviewing the rate structure annually to assess its sustainability and ensure a balance between system viability and affordability.

THE LONG-TERM FINANCIAL PLAN AVOIDS BORROWING FOR RENEWAL

In the General Fund, the City's strategy has been to preserve debt borrowing room for major, strategic Council priority projects rather than for ongoing infrastructure renewal. Over a decade of high growth years, funds were set aside specifically to enable such borrowing for key projects, and this was incorporated into the budget. For infrastructure renewal, the City relies on a "Pay as You Go" approach – funding capital through the annual operating budget – using debt only as a tool to increase flexibility for strategic Council priorities when necessary.

Similarly, there is no borrowing within the Water & Sewer fund for infrastructure renewal. If debt financing were used over a 20-year period, a significant portion – up to \$58 million – would be lost to interest payments. Currently, this amount goes directly toward infrastructure investments maximizing the impact of each dollar on system renewal.

Using debt for infrastructure renewal would only provide a temporary solution and would delay truly addressing the infrastructure challenges. Once borrowed, funds are committed to debt payments for 20 years, reducing the capacity to allocate funds to renewal efforts during this period. By following a “Pay as You Go” model, every dollar of capital funding is invested directly into infrastructure renewal. This approach is essential to try to meet the ongoing replacement target of 1% of infrastructure each year; on top of addressing the existing \$240 million infrastructure deficit (the backlog of infrastructure that is past its useful life). This deficit includes critical assets such as water mains, sewer mains, and water and sewer facilities like lift stations and treatment plants.

HISTORY OF WHY INCREASES HAVE BEEN REQUIRED

1) Deferred Emphasis on Replacement Funding

- Most water and sewer infrastructure has a long lifespan (60-100 years) and until the early 2000s, there was little emphasis on building up funds for future replacement needs. At the that time, much of the infrastructure was still within its lifecycle, and there was no immediate need for major infrastructure replacements.

2) Revenue Allocation to Operations and Extensions

- Historically, revenue was used primarily for day-to-day operations and infrastructure extensions rather than to replace aging infrastructure.

3) Rate Increase Trends (1990 – 2013)

- Between 1990 and 2013, rate increases were minimal. In many years, rates remained unchanged or did not keep up with inflation. When adjustments were made, they were only applied to the consumption rate, which led to an imbalance in the ratio between the consumption and fixed rates.
 - i. From 1990 to 2004, eight out of the fourteen years saw no increases at all.
 - ii. When rates did increase, they were typically low and failed to keep pace with inflation.

4) Shift in Consumption Patterns

- Historically, the largest portion of revenue was based on water consumption. However, since 2008, average consumption has decreased by 16%, while the biggest portion of the utility costs have continued to remain fixed. The pandemic also sharply reduced consumption in 2020-2021, especially as offices, businesses, and universities closed temporarily.

5) Current Funding Gap

- Today, the target amount of infrastructure that should be funded for replacement annually (called “depreciation”) is \$23.3 million. This target excludes the \$240 million in additional backlog of old infrastructure that is past its useful life and will be needing replaced. Yet, the revenue available for infrastructure renewal – including contributions from other governments – is \$17.8 million, creating a shortfall. As a result, the infrastructure deficit will likely grow by an additional \$5.5M in 2026 alone.

THE IMPORTANCE OF INVESTING TO KEEP OUR WATER SAFE AND RELIABLE

SERVICE DISRUPTIONS CAUSED BY WATER MAIN FAILURES

Infrastructure renewal is essential to deliver high quality drinking water and to minimize service disruptions. Boil orders can significantly impact residents, with water main failures being the primary cause of such orders in New Brunswick over the past decade.

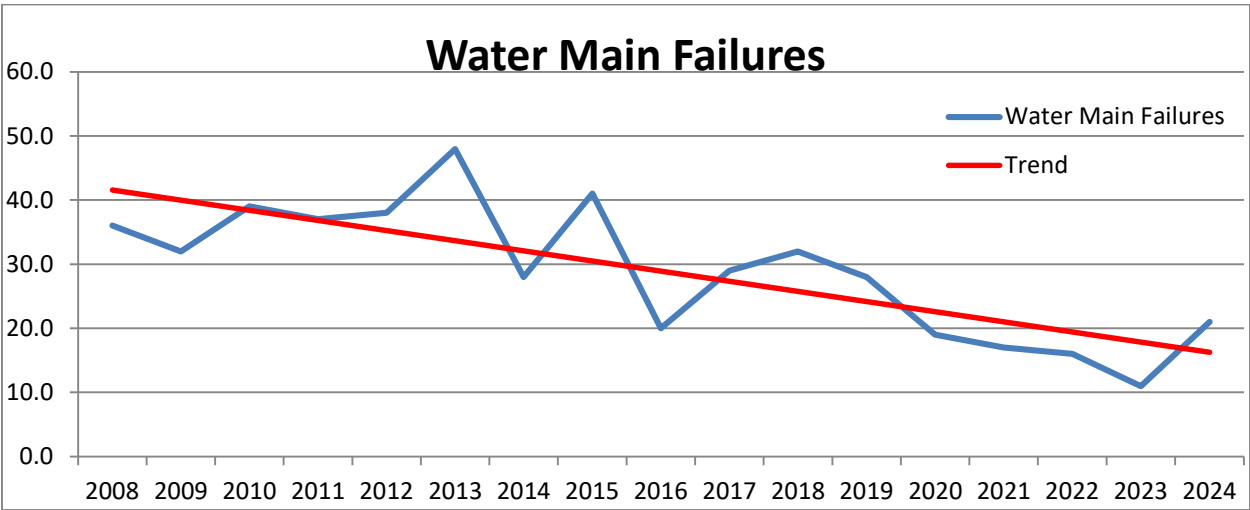

Since 2006, 118 different municipalities have reported boil orders to the New Brunswick Chief Medical Officer, with almost half of these orders resulting from water main breaks and the resulting pressure loss in the water system.

In Fredericton, there has been only one major boil order in the past ten years, lasting just three days. This was a precautionary measure during nearby construction, not the result of any contamination issue.

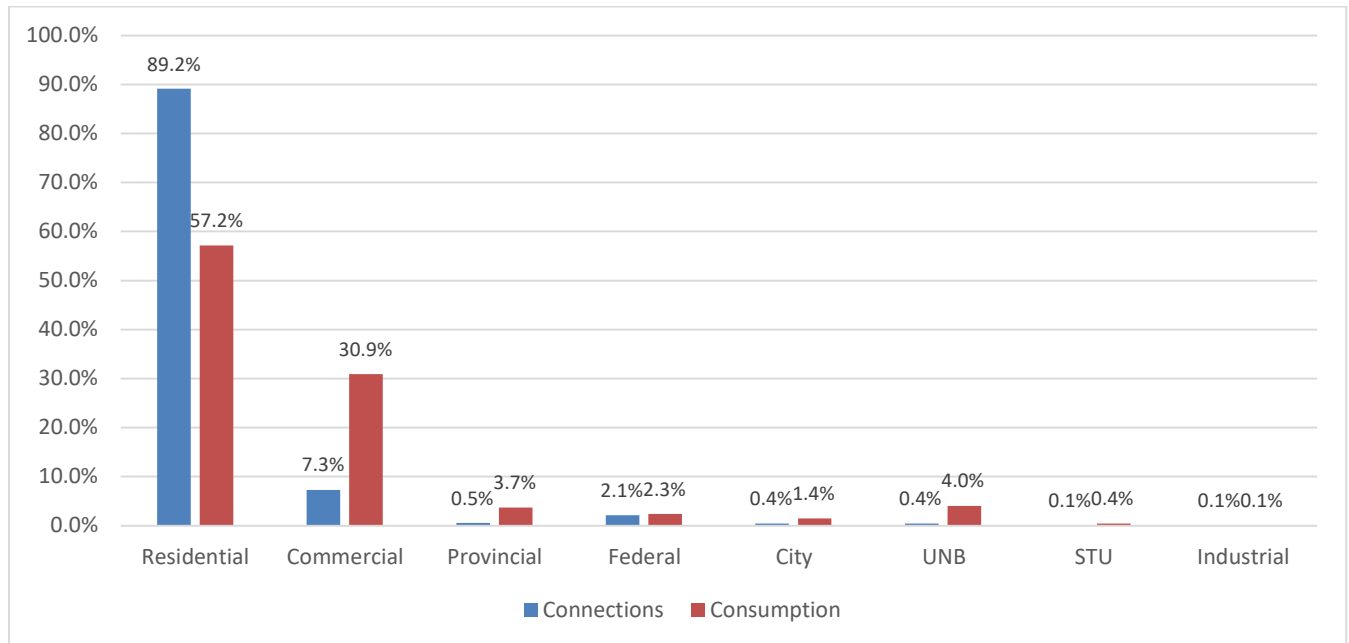

The City’s targeted investments in areas with high incidences of water main breaks have successfully prevented major service interruptions. However, aging infrastructure means the City remains susceptible for service disruptions due to water main breaks, impacting residents and emphasizing the need for continued focus on infrastructure renewal. This is why the City is committed to addressing the infrastructure deficit with a proactive and targeted investment plan.

WATER MAIN BREAKS

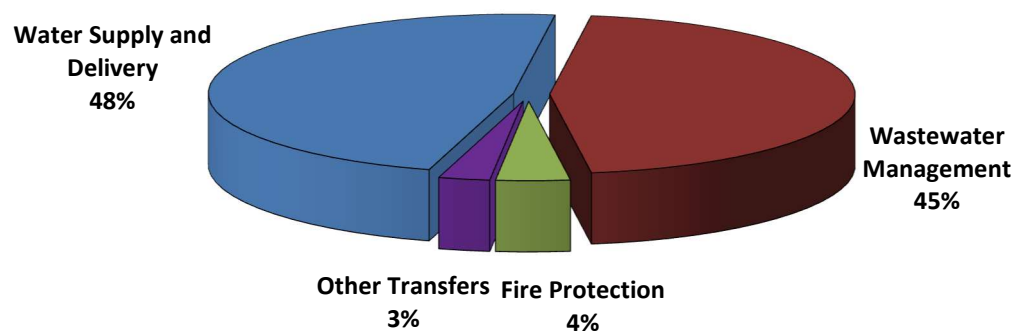

Infrastructure renewal helps keep water main failures from trending higher. This helps avoid service disruption due to contamination or boil orders.

RESOLUTION NO: 1

Moved by _____, seconded by _____

BE IT RESOLVED THAT the Council of the local government of The City of Fredericton approves and authorizes the General Fund Operating Budget for 2026, being: The sum of \$184,774,618 be the total operating budget of the local government, that the sum of \$160,250,755 be the Warrant of the local government for the ensuing year, and that the tax rate(s) for the Municipality be: Fredericton-In (00) \$1.3086, Fredericton-Out (01) \$1.2065, Saint Mary's (04) \$0.6659, Former LDS (05) \$0.7786, Lakeside Estates (06) \$0.7362 and Lincoln (07) \$0.5542. The Council orders and directs the levying by the Minister of Local Government of said amount on real property liable to taxation under the *Assessment Act* within the local government of The City of Fredericton; AND

BE IT FURTHER RESOLVED THAT the Council of the Municipality of the City of Fredericton set the non-residential tax base ratio at 1.7

RESOLUTION NO: 2

Moved by _____, seconded by _____

BE IT RESOLVED THAT the Council of the Municipality of the City of Fredericton directs that the amount of \$25,271,122 for the 2026 General Fund Pay As You Go Capital budget be approved in accordance with the Public Procurement Management Policy No: COR-POL-023; and

BE IT FURTHER RESOLVED THAT the Council of the Municipality of the City of Fredericton hereby authorizes and directs the Mayor and City Clerk to execute any CCDC2 and CCDC4 contracts for the acquisition of the assets and the completion of the construction projects listed and approved as part of the 2026 Capital Budget; and

BE IT FURTHER RESOLVED THAT the Council of the Municipality of the City of Fredericton hereby authorizes and directs the Mayor and City Clerk to execute any agreements of purchase and sale and such further legal transactional documents as required in relation to the approved construction projects that form part of the 2026 Capital Budget with content satisfactory to the Director of Engineering and Operations, or designate, and in a form and content approved by the City Solicitor, or designate; and

BE IT FURTHER RESOLVED THAT the Council of the Municipality of the City of Fredericton hereby directs that any 2026 capital budget savings within Corporate Fleet Capital be reallocated to the next top priority vehicle/equipment on the infrastructure deficit listing; and

BE IT FURTHER RESOLVED THAT the Council of the Municipality of the City of Fredericton hereby authorizes and directs the Purchasing Manager and Fleet Manager to pre-order, to a maximum of \$2,000,000 each year, for future years capital purchases pursuant to the 5 Year Capital Project Plan to help offset inflationary and supply chain issues for 2027, 2028 and 2029.

RESOLUTION NO: 3

Moved by _____, seconded by _____

BE IT RESOLVED THAT the Council of the City of Fredericton hereby approves and authorizes the increase in recreation rates for arenas, sports fields, courts, the indoor pool, Killarney Lake Lodge, and community school gyms as specified and outlined in the attached Schedule A, effective October 1, 2026.

Schedule A

Arenas:

- 1) Adult Prime
October to April hourly rate be increased from \$237.82 (HST included) to \$261.60 (HST included)
- 2) Adult Non-Prime
October to April hourly rate be increased from \$174.57 (HST included) to \$192.03 (HST included)
- 3) Adult Late
October to April hourly rate be increased from \$206.20 (HST included) to \$226.82 (HST included)
- 4) Minor Prime
October to April hourly rate be increased from \$137.89 (HST included) to \$151.67 (HST included)
- 5) Minor Non-Prime
October to April hourly rate be increased from \$117.65 (HST included) to \$129.42 (HST included)
- 6) Off-Season hourly rate be increased from \$234.60 (HST included) to 239.29 (HST included)
- 7) For Profit hourly rate be increased from \$328.88 (HST included) to \$335.46 (HST included)
- 8) Arena Floor Rental – Minor hourly rate be increased from \$41.06 (HST included) to \$41.88 (HST included)
- 9) Arena Floor Rental – Adult hourly rate be increased from \$58.65 (HST included) to \$59.82 (HST included)

Sports Fields and Courts:

- 1) Royals Field (no lights) per hour be increased from \$30.41 (HST included) to \$31.01 (HST included)
- 2) Royals Field (lights) per hour be increased from \$48.00 (HST included) to \$48.96 (HST included)
- 3) Sports Field - Turf Prime hourly rate be increased from \$70.38 (HST included) to \$71.79 (HST included)
- 4) Sports Field – Turf Minor hourly rate be increases from \$41.06 (HST included) to \$41.88 (HST included)

Indoor Pool:

- 1) Annual Membership – Youth/Senior rate be increased from \$171.26 (HST included) to \$174.69 (HST included)
- 2) Annual Membership – Adult rate be increased from \$249.14 (HST included) to \$254.12 (HST included)
- 3) Annual Membership – Family rate be increased from \$539.79 (HST included) to \$550.59 (HST included)
- 4) Children’s Learn to Swim program be increased from \$56.10 to \$57.22
- 5) Adult Instruction program be increased from \$64.52 (HST included) to \$65.81 (HST included)
- 6) Indoor Pool Rental Base Fee be increased from \$87.98 (HST included) to \$89.73 (HST included)

Killarney Lake Lodge:

- 1) Killarney Lake Lodge – Special Event Package A be increased from \$1,021.36 (HST included) to \$1,072.43 (HST included)
- 2) Killarney Lake Lodge – Special Event Package B be increased from \$814.70 (HST included) to \$855.43 (HST included)

Community School Gyms:

- 1) School Gyms – Single Gym hourly rate be increased from \$32.26 (HST included) to \$32.90 (HST included)
- 2) School Gyms – Double Gym hourly rate be increased from \$49.85 (HST included) to \$50.85 (HST included)

RESOLUTION NO: 4

Moved by _____, seconded by _____

BE IT RESOLVED THAT the Council of the Municipality of the City of Fredericton authorizes and directs staff of the Legal Division to prepare an appropriate by-law to amend By-law No. T-7, Parking Meters, Zones and Pay Machines to reflect the following fee changes, effective February 1, 2026:

On-Street Daily Permits (Zone ABCQ) – increase from \$5.00/day to \$7.50/day

RESOLUTION NO: 5

Moved by _____, seconded by _____

BE IT RESOLVED THAT the Council of the Municipality of the City of Fredericton authorizes and directs staff of the Legal Division to prepare an appropriate by-law to amend By-law No. T-7, Parking Meters, Zones and Pay Machines to reflect the following fee changes, effective July 1, 2026:

One Hour Parking Meter - increase the rate from \$2.00/hr to \$2.50/hr

Two Hour Parking Meter – increase the rate from \$2.00/hr to \$2.50/hr

Tannery Lot Hourly Rate – increase from \$2.00/hr to \$2.50/hr

Officers' Square Lot – increase rate from \$2.00/hr to \$2.50/hr

RESOLUTION NO: 6

Moved by _____, seconded by _____

BE IT RESOLVED THAT the Council of the Municipality of the City of Fredericton approves and authorizes the following Transit rate change, effective January 1, 2026:

The Transit Charter Services Rate – increase from \$150.00/hr to \$155.00/hr

RESOLUTION NO: 7

Moved by _____, seconded by _____

BE IT RESOLVED THAT the Council of the City of Fredericton hereby provides grant funding to the various organizations and in the amounts listed in the attached four tables pursuant to Section 102 of the Local Governance Act as Strategic Partner Capital Grants, Community Funding Grants, Climate Change Action Grants and Arts, Culture and Heritage Grants in 2026; and

BE IT FURTHER RESOLVED THAT the Council of the City of Fredericton hereby approves \$10,000 as the amount for grant funding to the various organizations pursuant to Section 102 of the Local Governance Act for Anti-Racism Youth Microgrants for 2026.

RESOLUTION NO: 8

Moved by _____, seconded by _____

BE IT RESOLVED THAT the Council of the City of Fredericton hereby approves the following:

1. the amount of \$25,583,126 as the 2026 budget for Water and Sewer Revenue;
2. the amount of \$13,958,034 as the 2026 Water and Sewer operating budget;
3. the amount of \$11,625,092 as the 2026 Water and Sewer capital budget; and

BE IT FURTHER RESOLVED THAT the Council of the City of Fredericton hereby authorizes and directs the City Solicitor to draft the appropriate by-law to amend By-law No. W-3, A By-law Respecting Water Rates and Sewer Rentals to reflect the following changes, effective the 2nd quarterly billing in 2026:

1. increase the quarterly service charge from \$72.30 to \$77.50 for each of water and sewer; and
2. increase the commodity charge per cubic meter from \$1.02 to \$1.04 for each of water and sewer; and
3. Increase the bulk water rate per cubic meter from \$2.51 to \$2.55; and
4. Increase the private hydrant fee from \$310.00 + HST to \$373.00 + HST; and
5. Increase the fire protection fee from \$150.00 + HST to \$193.50 + HST

RESOLUTION NO: 9

Moved by _____, seconded by _____

BE IT RESOLVED THAT the Council of the Municipality of the City of Fredericton authorizes and approves the amount of \$11,625,092 for the Water and Sewer Fund 2026 Pay As You Go Capital budget in accordance with the Public Procurement Management Policy No: COR-POL-023, and

BE IT FURTHER RESOLVED THAT the Council of the Municipality of the City of Fredericton hereby authorizes and directs the Mayor and City Clerk to execute any agreements of purchase and sale and such further legal transactional documents as required in relation to the approved construction projects that form part of the 2026 Capital Budget with content satisfactory to the Director of Engineering and Operations, or designate, and in a form and content approved by the City Solicitor, or designate; and

BE IT FURTHER RESOLVED THAT the Council of the Municipality of the City of Fredericton hereby authorizes and directs the Mayor and City Clerk to execute any CCDC2 and CCDC4 contracts for the acquisition of the assets and the completion of the construction projects listed and approved as part of the 2026 Capital Budget.
