About the City of Charlottetown

Charlottetown, the capital city of Prince Edward Island, is known as the “Birthplace of Confederation” due to the historic 1864 Charlottetown Conference, which set the stage for Confederation.

It is recognized as the unceded territory of the Indigenous Mi’kmaq People.

Charlottetown serves as the seat of the PEI government and is a vibrant hub of culture and education, home to two post-secondary institutions, the University of Prince Edward Island and Holland College.

With a growing knowledge economy and strategic location, Charlottetown attracts global businesses across sectors such as biotechnology, financial services, information technology and manufacturing. Supported by a skilled workforce and a favorable business environment, these industries drive economic growth and innovation.

Offering an exceptional quality of life, Charlottetown combines big-city amenities with cultural events and recreational opportunities in a safe, clean environment that fosters a strong sense of community. As a port city, Charlottetown is a major tourism destination and designated Cultural Capital of Canada, hosting year-round attractions, including the renowned Charlottetown Festival, that takes place in the Confederation Centre of the Arts, located in the heart of our downtown.

Our City also serves as a premier venue for meetings and conventions and has become a leading sport tourism destination, featuring state-of-the-art facilities and hosting major sporting events throughout the year.

With its rich history, vibrant culture, thriving economy and outstanding quality of life, Charlottetown continues to attract residents, businesses, visitors and sports enthusiasts from around the world.

Land Acknowledgement

In the spirit of Reconciliation, we acknowledge that the land upon which we gather is uncaded Mi’kmaq territory. Epekwitk (Prince Edward Island), Mi’kma’ki, is covered by the historic Treaties of Peace and Friendship. We pay our respects to the Indigenous Mi’kmaq People who have occupied this Island for over 12,000 years; past, present and future.

Introduction from the Chair of the Finance, Audit, Tendering and Administration Committee

The 2025/2026 budget presents a solid financial plan for the City of Charlottetown, one that touches all programs and services with a focus on effectively managing growth through careful and planned spending.

Throughout this year's budget process, we have remained committed to the principles of transparency and good governance. In-person and online engagement opportunities were held to ensure the budget reflects the needs of the community. Every effort was taken to ensure meetings were held in open session, livestreamed and can be viewed online by the public.

This budget reflects a prudent and strategic approach to spending in the wake of unpredictable changes in the global economy and fiscal realities closer to home. In Charlottetown, rapid population growth has created tremendous opportunities and also increased demand on infrastructure and services. We are committed to managing public finances responsibly and continue to invest in critical services including transit, fire, sport and community infrastructure, and water and sewer.

As you look through this budget book, I'm confident the figures will show an appropriate balance in addressing capital and operational needs that will help us prepare for growth while maintaining the excellent quality of life our residents deserve.

City of Charlottetown Strategic Plan 2022 to 2026

The City of Charlottetown's Strategic Plan outlines key priorities to enhance programs and services. Developed with input from residents, stakeholders, City staff and Council members, the plan establishes guiding principles that reflect shared values and foster a unified approach to the City's work.

The City Council and Administration will be:

- People-focused always
- Welcoming as we grow
- Collaborating to make us stronger
- Accountable to residents, ourselves and to each other
- Safety in all we do

It also identifies four key interconnected pillars, accompanied by specific focus areas and commitments, to guide transformational change in the City over the next four years and beyond.

Our Vision

Respecting the past. Embracing the future. Creating a community for everyone.

Our 4 Pillars

The four pillars are areas that represent the major parts of city life and require transformational change over the next four years and beyond. These include:

**Community-Building
and Placemaking**

**Infrastructure and
the Environment**

**Governance and
Civic Engagement**

**Inclusive
Economic Growth**

Our 10 Commitments

These ten commitments reflect the most powerful themes that emerged during the public engagement process and what stakeholders believe need to be 'filters' or 'lenses' through which all future decision-making needs to be considered.

Transparency

Engagement

Sustainability

Collaboration and Partnership

Communication

Reconciliation

Technology

Inclusion and Representation

Growth

Residents and Visitors

Our Guiding Principles

These guiding principles unify our work and underscore our values:

Safety in all we do

Collaborating to make us stronger

Accountable to residents, ourselves and to each other

Welcoming as we grow

People-focused always

Engagement

Public engagement is essential for responsive governance. Since gathering meaningful feedback on the City's financial plan within a short timeframe can be challenging, the City remains committed to keeping residents informed about programs and services while listening to their input year-round. In preparing the 2025-26 budget, the City used various opportunities to engage with residents and gather feedback:

- The 2023 Community Survey, which provided thoughts and opinions on municipal programs and services from a statistically representative sample of Charlottetown's residents
- Committee presentations where department managers presented their budget requests to the respective committees and participated in discussions
- A budget-specific project on CharlottetownHall.ca where residents were invited to participate in a pre-budget survey to indicate their priorities for City investments.
- In-person presentations from stakeholder groups and grant recipients, outlining their financial planning objectives.

These events have been promoted through social media, mainstream media, the City's website and CharlottetownHall.ca. All Budget Committee meetings have been held publicly, live-streamed and are available for review on the City's YouTube channel.

Budget Overview

Council's Budget Priorities

1. Capital asset management
2. Core service delivery
3. Managing growth of the City

Legislative Framework

The City of Charlottetown engages in a comprehensive budget preparation process to allocate resources effectively. In doing so the City must adhere to the Municipal Government Act of Prince Edward Island (the Act) and the Financial Plan Regulations (the Regulations). The Act and Regulations set out the rules for how the City must handle its money, including budgeting, planning for future expenses, and keeping track of assets. The legislation refers to the City budget as a Financial Plan.

Key legislative requirements from the Act:

- The fiscal year for the City is April 1 to March 31 [S149(1)]
- On or before March 31 in each year, City Council shall by resolution adopt a budget for the upcoming fiscal year. [S150(1)]
- City Council must provide public notice and hold a public meeting regarding the budget not less than two weeks before it receives final approval and is adopted. [S151(1)]
- A copy of the final approved budget shall be filed with the Minister of Municipal Affairs by April 15 of the fiscal year that it was adopted. [S150(4)]

Budget Basics

Each year, the City updates its Financial Plan and goes through a budget process to determine how much it will need to spend in the upcoming fiscal year:

- Maintain current levels of service (base operating budget)
- Incorporate service level enhancements or reductions
- Incorporate new operating initiatives
- Fund Capital Projects

This Financial Plan includes the Operational Budget and Capital Budget for:

- City of Charlottetown
- Charlottetown Water and Sewer

Water and Sewer Services

In 2024, the average residential customer paid \$655.15 for water and sewer services for the year. With a 2.2 per cent increase this year, we anticipate the average residential customer will pay \$669.56 in 2025. This amounts to an increase of \$14.41 annually, or four cents a day.

Understanding Operational vs. Capital Budgets

A municipal budget is a summary of the money coming in and being spent by a municipality in a specific period of time, referred to as a fiscal period. It is a comprehensive guide for making financial and operational decisions.

The City's expenditures, or what it spends money on, is divided into operational and capital:

Operational Budget

The operational budget is the financial plan that outlines the day-to-day expenses and revenue projections for running the municipality over a specific period, typically a fiscal year. It covers ongoing operational costs such as employee salaries, utilities, maintenance, public safety, administrative expenses, and other routine expenditures required to deliver services to residents. Revenue sources usually include property taxes, user fees, grants, and other forms of income generated by the municipality.

Capital Budget

The capital budget is a financial plan that focuses on long-term investments in infrastructure, facilities, and other major projects that enhance or expand the municipality's physical assets. It typically covers large-scale projects with significant costs and longer lifespans, such as building new roads, storm water management, bridges, parks, sewer systems, or upgrading existing infrastructure. Funding often comes from sources like short and long-term borrowing, government grants, special levies, and reserve funds.

The Budgeting Process

Municipal Operational and Capital budgets are done on an annual basis. Baseline operational budgets are prepared by each department looking at past, current, and forecasted expenses. Utilities are self-funded by user rates charged to customers and not funded by general municipal taxes. Utility rates are structured to maintain cost recovery for operations and capital projects. Any changes to the baseline budget are proposed and presented to senior administration for review with the associated business plan. These proposed changes are evaluated based on:

- Alignment with Council's Strategic Plan
- Maintaining/enhancing existing service level standards mitigating future budget impacts and risks
- Implementing proactive funding into the baseline budget for infrastructure

During City Council's annual budget deliberations, all members of Council review the operational and capital budgets presented. Council may amend the budgets prior to approval.

1. Define Budget Process and Objectives: Budget process is presented to Council and objectives are defined.
2. Preliminary Budget Preparation: The budget is prepared taking into consideration Council's objectives and strategic priorities.
3. Public Engagement/Surveys: The budget survey is made available to gather public opinion on the services that matter most to Charlottetown residents.
4. Public Meeting: Administration consults with the public to ensure residents have an opportunity to ask questions and provide feedback.
5. Internal Staff Review: The budget is reviewed by Senior Administration ensuring the proposed budget aligns with the public feedback and Council's strategic priorities.
6. Budget Refinement - The budget is refined based on the feedback to Committee/Council.
7. City Council Review and Approval: The final City budget is reviewed by Council and approved prior to March 31.
8. Budget Monitoring/Forecasts: Administration monitors expenditures throughout the year to ensure adherence to the approved budget.

Services You Receive

Sources of Funding

The City receives funding for these services and capital projects from the following sources:

- Property Taxes
- Provincial/Federal Grants
- Water and Sewer Service Fees
- User Fees

A Steady Approach to Taxation

As part of updating the Financial Plan, the City considers what funds are required to maintain or enhance these services. This may result in increases to property taxes or utility rates. The City plans for stable, ongoing tax rate increases to fund inflation, ensure sustainable services, and plan for current and future community needs. This approach provides citizens and businesses the ability to anticipate future expenditures.

Summary of City Departments

City Government

Office of the Chief Administrative Officer

Summary

At the core of Charlottetown's governance, the Office of the Chief Administrative Officer plays a crucial role in leadership and co-ordination. It provides leadership in the growth and planning of Charlottetown by co-ordinating strategic initiatives, facilitating effective governance and ensuring the seamless execution of policies, bylaws and resolutions that drive continued development and growth throughout the City. The office supports the City's Chief Administrative Officer (CAO), the Mayor and City Council through dedicated Executive Assistants and a Procedures and Records Co-ordinator.

The Office also provides City Council with advice on civic matters, oversees the strategic management of City staff and their respective departments. The Office supports Council on strategic initiatives with community input.

Programs and Services Provided

- Ensures City resolutions and policies are in compliance
- Informs Council on the operation and affairs of the City
- Responsible for hiring, directing and managing all City staff
- Acts as a key liaison with all strategic partners

Budget Highlights

- Focus on prudent fiscal management and making decisions based on continued high level of service delivery to our citizens
- Recognition of aging infrastructure and the need for strategic asset management
- Building on lasting partnerships to support our strategic plan
- Strategically addressing the growth of our city with the support of partner funding programs

Communications

Department Summary

The Communications Department serves as the voice of the City, working in collaboration with all City departments to ensure that projects and initiatives are communicated effectively so residents, businesses and other stakeholders understand the City's actions and their impact on the community. The Communications Department also oversees community and media relations, and the City's social media channels and website administration.

Programs and Services Provided

- Media relations and training
- Internal communications
- Public affairs
- Community relations
- Social media creation and web content administration
- Brand management
- Issues management

Budget Highlights

- Status quo budget
- Three full-time employees

Information Technology

Department Summary

Information Technology (IT) is responsible for managing the City of Charlottetown's technology infrastructure and supporting various government operations. This includes providing technical assistance to staff, as well as maintaining the security of technology infrastructure and data. IT supports citizen engagement by providing digital services and ensuring data management and compliance with regulations.

Programs and Services Provided

- Assesses potential security threats
- Troubleshoots issues and hardware repair
- Installs software and external devices
- Ensures compliance with standards
- Maintains infrastructure, licensing and vendor relationships

Budget Highlights

- Implementation of Cityworks software to improve creation and management of building permits and applications (including e- permitting)

Economic, Tourism and Cultural Development

Department Summary

The Economic, Tourism and Cultural Development Department drives inclusive economic growth, helps shape the visitor experience, enhances residents' quality of life and civic pride and contributes to building community capital. It works with partners to advance economic prosperity and manages public events, public art, cultural development, tourism, civic celebrations and sport tourism events, among others.

Programs and Services Provided

- Increased investment
- Business and tourism attraction and development
- Arts and cultural development
- Event hosting support and delivery of civic celebrations
- Newcomer engagement
- Visitor Information Centre Operation

Budget Highlights

- Further development of an economic development growth strategy and reconciliation roadmap
- Enhanced funding for international business development and attraction initiatives
- Increased investment in civic celebrations
- Funding of seven signature national/international events, along with continued support of annual events such as Jack Frost Winterfest, DiverseCity Multicultural Festival, Old Home Week and the Gold Cup Parade, Moonlight Bazaar and the Charlottetown Christmas Festival
- Maximizing the economic, community and social impact of the arts with an increase in arts and culture grant funding

Environment and Sustainability

Department Summary

The Environment and Sustainability Department collaborates with internal staff to manage the City's natural assets, reduce carbon emissions, and ensure that City operations are environmentally, socially, and economically sustainable. Additionally, the department partners with external groups and individuals to enhance Charlottetown's natural areas, ecosystem services, sustainable transportation, energy efficiency, food security, and climate resilience. It oversees programs such as energy reduction initiatives, climate action planning, management of natural areas and urban forests, water conservation and flood prevention, food and waste programs, and supports public transit and active transportation.

Programs and Services Provided

- Energy reduction programs
- Climate action planning
- Natural areas and urban forest management
- Water conservation and flood prevention programs
- Food and waste programs
- Public transit and active transportation

Budget Highlights

- Public transit service delivery in Charlottetown, including a focus on aging fleet replacement
- Active Transportation Plan to be launched in spring/summer 2025, projects to support increases in cycling, walking and other forms of AT
- Climate Action Plan to be launched in spring 2025, energy efficiency projects, community engagement activities, and a flood rebate program
- Natural asset management, street, park and greenspace planting, stewardship and restoration
- Community gardening and food security projects

Finance

Department Summary

The Finance Department manages all fiscal responsibilities for the City. It oversees procurement for City departments and handles insurance coverage for all City properties. The department is committed to providing clear and comprehensive information, as well as support, to facilitate informed strategic decisions for the City. It is responsible for developing and managing short- and long-term financial plans, capital and operating budgets and cash flow monitoring. The department is also responsible for billing and accounting for city revenues, accounts payable for all departments, preparation of the annual financial statements, and the annual year end audit.

Programs and Services Provided

- Short-and long-term operating and capital financial planning and budgeting
- Budget monitoring
- Cash management
- Billing and accounting for city revenues
- Accounts payable for all city departments
- Financial reporting
- Procurement

Budget Highlights

- Status quo budget with some additional funding for depreciation and interest tied to the capital budget

Mayor and Council

Summary

Charlottetown City Council is comprised of a Mayor and ten councillors representing 10 wards within the city. The Mayor is elected at large and Councillors are elected by ward with elections held every four years.

Programs and Services Provided

- Safeguarding the well-being of the City and its residents
- Ensuring policies, programs and services align with the provincial Municipal Government Act that sets the governance framework for all municipalities
- Adopting resolutions and enacting bylaws
- Overseeing the budget approval process, including establishing capital and operating budget priorities

Budget Highlights

- Initiatives that actively engage City residents, fostering a sense of belonging and encouraging civic participation. By supporting community programs and public engagement efforts, Council helps strengthen connections among residents and promotes good citizenship

Parks and Recreation

Department Summary

The Parks and Recreation Department strives to enhance the quality of life for people who live and work within our municipality as well as those who visit. The department provides leadership for the development of safe, accessible, diverse and high-quality recreational opportunities. It evaluates programs, services and facilities based on the personal, social, economic and environmental benefits.

The Parks and Recreation Department strives to enhance the quality of life for residents and visitors by ensuring there is a wide range of physical activity and healthy living opportunities. They are responsible for maintaining, protecting and enhancing existing and future parks, open spaces, trails, outdoor rinks, boardwalks, City arenas and sport facilities, and offering direct delivery programs such as the popular Intro to Sports and summer day camps.

Programs and Services Provided

- Maintains approximately 400 acres of parkland and greenspaces
- Maintains playgrounds, sport fields, sport courts, trails/boardwalks, outdoor pools, outdoor rinks, clubhouses/buildings, natural areas, forested parks, horticultural displays
- Offers direct delivery programs and community events
- Coordinates sport field bookings and scheduling
- Supports community organizations like minor sport groups, leagues and teams.
- Administers the Minor Sport Subsidy Program
- Supports volunteer organizations
- Manages the operations of arenas and coordinates with Bell Aliant and Eastlink centres
- Oversees the scheduling of community centres
- Oversees and leads capital projects
- Enforces bylaws, policies and plans

Budget Highlights

- Introduction of new programs and facilities
- Opening the newly renovated Victoria Park Tennis Courts
- Installation of new playground structures within identified parks
- Upgrade and reconstruction of several pathways and trails
- Opening of new Simmons pool

Planning and Heritage

Department Summary

The Planning and Heritage Department comprises two key sections: Planning Policy and Heritage and Development Planning. It manages the city's growth through community planning, sustainable development strategies, and land use regulation. Core responsibilities include issuing building permits, overseeing development agreements, and maintaining critical policy documents such as the Official Plan, Zoning and Development Bylaw, and Heritage Preservation Bylaw. Additionally, the department enforces zoning regulations, conducts inspections, and works to preserve and enhance the city's heritage assets, ensuring a balance between modern development and historical integrity.

Beyond its regulatory role, the department's staff actively engages with residents, builders, and developers to assist with zoning inquiries and design reviews. The department also administers incentive programs that promote heritage preservation and collaborates with stakeholders to advance urban development initiatives that align with the City's broader strategic goals.

Programs and Services Provided

- Development/Subdivision applications processing
- Development agreements and building permits
- Zoning Inquiries
- Short-term rentals licensing
- Heritage grants/tax Incentives
- Affordable housing agreements/incentives
- Land-use complaints and enforcement

Budget Highlights

- Implementation of the Housing Accelerator Fund Initiatives
- Boosting staff complement to support expected growth
- Completion of the Official Plan and creation of a new Zoning and Development Bylaw

Charlottetown Police Services

Department Summary

Charlottetown Police Services (CPS) is the municipal police force responsible for public safety, law enforcement, and crime prevention in the capital city. As the largest urban centre in the province, Charlottetown faces unique policing challenges due to its role as a government, tourism, and commercial hub. The city experiences significant population fluctuations due to seasonal tourism, post-secondary institutions, and large-scale events, placing added demands on police resources.

CPS operates with growing challenges and expectations, providing a range of services, including uniformed patrol, criminal investigations, street crime suppression, tactical intelligence, and community outreach. The service also supports policing partners through initiatives like the E-Watch public safety camera system and digital forensics.

With increasing calls for service, rapid population growth, and evolving crime trends driven by technology, CPS is focusing on strategic growth to ensure public safety. While their services are specific to the City of Charlottetown, they also work in collaboration with all other island police agencies.

Budget Highlights

- Road safety initiatives
- Drug enforcement
- Advances in technology supporting effective police response
- Critical Incident Command

Water and Sewer Utility

Department Summary

The Water and Sewer Utility is responsible for providing safe, clean water to the businesses and residents in Charlottetown, which also means it manages the water system and pumps and storage facilities that bring water from the watershed into the City system.

The Utility also operates the Charlottetown Pollution Control Plant also known as Wastewater Treatment Plant which is the collection and treatment system for all wastewater in Charlottetown.

Programs and Services Provided

- Water Supply – 4 wellfields
- Water Distribution – 2 booster stations and 300 km of water mains
- Wastewater Collection – 40 liftstations and 260 km of sewer mains
- Wastewater Treatment – Charlottetown, Stratford and Eastern PEI

Budget Highlights

- Planning for future water supply options
- Improving operation of sanitary sewer system
- Customer service portal development
- Infrastructure renewal planning

Project: Bikeshare Program

Project Description

A bikeshare program in Charlottetown to allow residents and visitors to reduce their reliance on cars and travel throughout the city by bicycle. A selection of electric and traditional bikes will be offered. An RFP will be issued to select a third-party vendor to deliver a two-year bikeshare pilot. Depending on bids received, this would include between 60 and 180 bikes distributed throughout Charlottetown at up to 32 stations for use by the public.

Public Transit Buses

Department: Environment and Sustainability

Project: Public Transit Buses

Project Description

Diesel buses and electric minibuses to replace aging fleet and deliver on fleet expansion to allow continued public transit service. Three diesel buses are planned for delivery in December 2025. Bids for an additional four diesel buses closes in April 2025 for delivery in 2026. In April, planning will begin for four electric minibuses and charging infrastructure.

New Fire Station

Department: Charlottetown Fire Department

Project: New Fire Station

Project Description

Finalizing new fire station design, site and pre-construction.

Strategic Alignment

- Community-Building and Placemaking
- Infrastructure and the Environment

Fire Engine Replacement

Department: Charlottetown Fire Department

Project: Fire Engine Replacement

Project Description

Replace three fire engines over the next five years, starting with Engine 4 at Station 2, that have exceeded their life expectancy as first response vehicles. In accordance with fire service code and standards, front line vehicles are to be replaced after 20 years of service. Replacing outdated vehicles will enhance firefighter safety and operational capabilities required in our growing City.

East Royalty Landfill Old Road and Active Transportation Pathway

Department: Parks and Recreation

Project: East Royalty Landfill Old Road and Active Transportation Pathway

Project Description

This work will enable the public to access the Parkman Soccer Complex, Acadian Forest & Trails, East Royalty Park and the neighbourhood of East Royalty from Acadian Drive. The scope of work includes resurfacing a large section of the old asphalt road, constructing a gravel driveway for the remaining portion and constructing an Active Transportation Pathway along the full length of the road and driveway.

- Infrastructure and the Environment

Artificial Turf Field

Department: Parks and Recreation

Project: Artificial Turf Field

Project Description

Complete design and drawings and cost estimate for one artificial turf field that can be used from April to November every year for up to 2,500 hours of use per season.

Construction is expected to start by September 2025.

Strategic Alignment

- Community-Building and Placemaking
- Infrastructure and the Environment

Multi-Use Outdoor Facility

Department: Parks and Recreation

Project: Multi-Use Outdoor Facility

Project Description

The outdoor sports facility located in the Elmer MacFadyen Memorial Recreational Complex is at the end of its life; the city is unable to maintain the facility as an aesthetically pleasing venue and to maintain safety standards.

A new outdoor facility will include a permanent artificial ice making system with a chiller unit, new boards, lighting and playing surface. Ice-making has become very difficult due to changing weather conditions. A permanent ice-making system will allow for the facility to maintain ice longer in the season, weather permitting. The city will engage with the public and keep them up to date on the new and improved multi-use facility that will be functional in all four seasons.

Heartz Hall Upgrades – Phase 2

Department: Public Works

Project: Heartz Hall Upgrades – Phase 2

Project Description

The historic Heartz Hall building was relocated on its original property in 2024 due to the widening of St. Peters Rd. Phase 2 activities involve interior work and appropriate modernizations.

Strategic Alignment

- Community-Building and Placemaking
- Infrastructure and the Environment

Sherwood Recreation Hall Upgrades

Department: Public Works

Project: Sherwood Recreation Hall Upgrades

Project Description

The Sherwood Recreation Hall is an ageing building that needs to be assessed for future services. Funding will be used to generate reports that consider options including renovations, reconstruction and alignment with adjacent services. This work may progress to some preparatory work for an approved future vision for the Hall.

Strategic Alignment

- Community-Building and Placemaking
- Infrastructure and the Environment

Brownfield Development

Department: Public Works

Project: Brownfield Development

Project Description

Funding for the 2025/26 fiscal year will involve the potential acquisition and upgrades of environmentally sensitive properties. Negotiations are not yet complete.

Strategic Alignment

- Community-Building and Placemaking
- Infrastructure and the Environment

Pownal Street Parkade

Department: Public Works

Project: Pownal Street Parkade

Project Description

The Pownal Street Parkade was built in 1986, and the structure is in need of significant renovation work to maintain its integrity. Work will include the replacement of rebar and concrete.

Strategic Alignment

- Infrastructure and the Environment

Queen Street Parkade Upgrades

Department: Public Works

Project: Queen Street Parkade Upgrades

Project Description

The Queen Street Parkade was constructed in 1979 and has undergone major maintenance over its lifecycle. The building is now in need of significant renovation work to ensure structural integrity.

Strategic Alignment

- Infrastructure and the Environment

Parks and Recreation Small Fleet Replacement

Department: Public Works

Project: Parks and Recreation Small Fleet Replacement

Project Description

Parks and Recreation Small Fleet Replacement for the 2025/26 fiscal year includes a Salt Hopper, V-Plow attachment, 4 work truck replacements, an additional 1/2 ton truck, an additional 21' trailer and 2 new 72" mowers.

Strategic Alignment

- Infrastructure and the Environment

Public Works Small Fleet Replacement

Department: Public Works

Project: Parks and Recreation Small Fleet Replacement

Project Description

Public Works Small Fleet Replacement for the 2025/26 fiscal year includes ten 1/2 ton trucks, four 3/4 ton trucks, and four 1-ton trucks.

Strategic Alignment

- Infrastructure and the Environment

Public Works Large Fleet Replacement

Department: Public Works

Project: Public Works Large Fleet Replacement

Project Description

3 plow trucks were ordered last year and are expected to be delivered in the 2025-26 fiscal year at a total cost of \$1.25 million. Large Fleet Replacement for Public Works also includes the purchase of 3 sidewalk machines and a new aerial chipper for the Environment and Sustainability Department for a total \$1.21 million.

Strategic Alignment

- Infrastructure and the Environment

Construction of New Sidewalks

Department: Public Works

Project: Construction of New Sidewalks

Project Description

New sidewalk construction in the 2025/26 fiscal year includes new infill sidewalk and paved paths in developed areas. Three sections awarded in 2024 are expected to be completed in the following areas: 375m on Angus Dr., 80m on Birch Hill Dr., 450m on Montgomery Dr.

2025 plans also include 275m on Eleana Crt., 175m on Elizabeth St., 400m on Parkside Dr. as well as the design of 560m on Westcomb Cres. and 750m on Stockman Dr.

Strategic Alignment

- Inclusive Economic Growth

Street Resurfacing

Department: Public Works

Project: Street Resurfacing

Project Description

This is an annual paving program focused on a worst-first approach while still giving consideration to efficient coordination with other upcoming and anticipated projects. At current costs, this reflects 4 per cent of inventory which is a 25-year return cycle.

Strategic Alignment

- Inclusive Economic Growth
- Infrastructure and the Environment

Exhibition Drive Reconstruction

Department: Public Works

Project: Exhibition Drive Reconstruction

Project Description

The wastewater storm system on Exhibition Drive is currently end-of-life and is experiencing issues that require replacement. Staff are currently assessing coordination with pedestrian and active transport plans.

Strategic Alignment

- Inclusive Economic Growth
- Infrastructure and the Environment

New Traffic Lights

Department: Public Works

Project: New Traffic Lights

Project Description

This work will involve the replacement of traffic signals with upgraded technology and hardware. The focus for the 2025/26 fiscal year will be on the Grafton Street corridor which includes Weymouth, Prince and Queen Streets.

Strategic Alignment

- Infrastructure and the Environment
